

## INDEPENDENT AUDITOR'S REPORT

To the Members of Volkswagen Finance Private Limited

Report on the Audit of the Standalone Ind AS Financial Statements

### Opinion

We have audited the accompanying standalone Ind AS financial statements of Volkswagen Finance Private Limited ("the Company"), which comprise the Balance sheet as at March 31 2021, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

### Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

### Emphasis of Matter

We draw attention to Note 46 of these standalone Ind AS financial statements, which describes the management's assessment of the impact of uncertainty caused due to the COVID-19 pandemic and its consequential effects which could impact the Company's estimates of impairment of loans to customers. Our opinion is not modified in respect of this matter.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements for the financial year ended March 31, 2021. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

1

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
(a) Impairment of financial assets (expected credit losses) (as described in Note 5 of the standalone Ind AS financial statements)	
<p>Ind AS 109 requires the Company to provide for impairment of its loans (designated at amortised cost) using the expected credit loss (ECL) approach. ECL involves an estimation of probability-weighted loss on financial instruments over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions which could impact the credit quality of the Company's loans and advances and investments.</p> <p>In the process, a significant degree of judgement has been applied by the management, including but not limited to the following matters:</p> <ul style="list-style-type: none"> <li>• Staging of financial assets (i.e. classification in 'significant increase in credit risk' ("SICR") and 'default' categories);</li> <li>• Grouping of the loan portfolio under homogenous pools in order to determine probability of default on a collective basis;</li> <li>• Determining effect of less frequent past events on future probability of default;</li> <li>• Estimation of management overlay for macro-economic factors which could impact the credit quality of the loans.</li> </ul> <p>Additional considerations on account of COVID-19</p> <p>Considering the evolving nature of the COVID-19 pandemic, which has continued to impact the Company's business operations, resulting in higher loan losses, the Company has maintained a management overlay of Rs. 1000 lakhs as part of its ECL, to reflect among other things the increased risk of deterioration in macro-economic factors. Given the unique nature of the pandemic and the extent of its</p>	<ul style="list-style-type: none"> <li>• Read and assessed the Company's accounting policy for impairment of financial assets and its compliance with Ind AS 109 and the governance framework approved by the Board of Directors pursuant to Reserve Bank of India guidelines issued on March 13, 2020.</li> <li>• Read and assessed the Company's policy with respect to moratorium pursuant to the RBI circular and tested the implementation of such policy on a sample basis.</li> <li>• Assessed the criteria for staging of loans based on their past-due status to check compliance with requirements of Ind AS 109. Tested samples for staging of loans based on their past-due status to check compliance with requirements of Ind AS 109.</li> <li>• Tested the assumptions used by the Company for grouping and staging of loan portfolio into various categories and default buckets for determining the PD and LGD rates. Tested the input data used for determining the PD and LGD rates and agreed the data with the underlying books of accounts and records.</li> <li>• Tested assumptions used by the management in determining the overlay for macro-economic factors (including COVID-19 pandemic).</li> <li>• Tested the arithmetical accuracy of computation of ECL provision performed by the Company in spreadsheets.</li> <li>• Assessed disclosures included in the standalone Ind AS financial statements in respect of expected credit losses including the specific disclosures made with regards to the impact COVID-19 on ECL estimation.</li> </ul>

Key audit matters	How our audit addressed the key audit matter
<p>economic impact which depends on future developments including governmental and regulatory measures and the Company's responses thereto, the actual credit loss can be different than that being estimated.</p> <p>In view of such high degree of management's judgement involved in estimation of ECL, accentuated by the COVID-19 pandemic and related events, it is a key audit matter.</p>	
IT systems and controls	
<p>The financial accounting and reporting systems of the Company are fundamentally reliant on IT systems and IT controls to process significant transaction volumes. Automated accounting procedures and IT environment controls, which include IT governance, general IT controls over program development and changes, access to programs and data and IT operations, are required to be designed and to operate effectively to ensure accurate financial reporting.</p> <p>Therefore, due to the pervasive nature and complexity of the IT environment, the assessment of the general IT controls and the application controls specific to the accounting and preparation of the financial information is considered to be a key audit matter.</p>	<p>We performed the following procedures for testing IT general controls and for assessing the reliability of electronic data processing, assisted by specialized IT auditors:</p> <ul style="list-style-type: none"> <li>• The aspects covered in the IT General Control audit were (i) User Access Management (ii) Program Change Management (iii) Other related ITGCs - to understand the design and test the operating effectiveness of such controls;</li> <li>• Assessed the changes that were made to the key systems during the audit period and assessing changes that have impact on financial reporting;</li> <li>• Tested the periodic review of access rights. We inspected requests of changes to systems for appropriate approval and authorization.</li> <li>• Performed tests of controls (including other compensatory controls wherever applicable) on the IT application controls and IT dependent manual controls in the system.</li> <li>• Tested the design and operating effectiveness of compensating controls, where deficiencies were identified and, where necessary, extended the scope of our substantive audit procedures.</li> </ul>

We have determined that there are no other key audit matters to communicate in our report.

**Other Information**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with [the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended March 31, 2021 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

- (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
- (d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy of the internal financial controls with reference to standalone Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (g) The provisions of section 197 read with Schedule V of the Act are not applicable to the Company for the year ended March 31, 2021;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements - Refer Note 37 to the standalone Ind AS financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure 1 referred to in paragraph 1 under the heading "Report on other legal and regulatory requirements" of our report of even date

Re: Volkswagen Finance Private Limited

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
  - (b) All fixed assets have not been physically verified by the management during the year but there is a regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
  - (c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment/ fixed assets are held in the name of the Company.
- (ii) The Company's business does not involve inventories and, accordingly, the requirements under clause 3(ii) of the Order are not applicable to the Company and hence not commented upon.
- (iii) According to the information and explanations given to us and audit procedures performed by us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanation given to us, there are no loans, investments, guarantees, and securities given in respect of which provisions of Section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under section 148(1) of the Act, for the services of the Company.
- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, goods and service tax, cess and other statutory dues applicable to it.
  - (b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (c) According to the records of the Company, the dues of income-tax, sales-tax, service tax and cess on account of any dispute, are as follows:

Name of the statute	Nature of the dues	Amount (Rs)	Period to which the amount relates	Forum where the dispute is pending
The central Excise Act, 1944	Service Tax	Rs. 5,071.85 Lakh (Rs. 2,534.089 Lakhs paid under protest.)	Financial Years 2012 -2018	The Customs, Excise and Service Tax Appellate Tribunal (CESTAT)
The Income Tax Act, 1961	Income Tax	Rs. 584.35 Lakhs.	Financial Year 2015-2016 and 2016 -2017	The Commissioner of Income Tax Appeals
The Income Tax Act, 1961	Income Tax	Rs. 89.20 Lakhs (Rs. 44.60 Lakhs paid under protest)	Financial Year 2014 -2015	Bombay High Court

- (viii) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or government or dues to debenture holders.

- (ix) According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer or further public offer.

Further, monies raised by the Company by way of term loans/debt instruments were applied for the purpose for which those were raised, though idle/surplus funds which were not required for immediate utilization were gainfully invested in liquid assets payable on demand.

- (x) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the standalone Ind AS financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no material fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.

- (xi) According to the information and explanations given by the management, the provisions of section 197 read with Schedule V of the Act are not applicable to the company and hence reporting under clause 3(xi) are not applicable and hence not commented upon.

- (xii) In our opinion, the Company is not a nidhi company. Therefore, the provisions of clause 3(xii) of the Order are not applicable to the Company and hence not commented upon.

- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with Section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the standalone Ind AS financial statements, as required by the applicable accounting standards.

**S.R. BATLIBOI & Co. LLP**

Chartered Accountants

- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the company and, not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with directors as referred to in section 192 of the Act.
- (xvi) According to the information and explanations given to us, we report that the Company has registered as required, under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure 2 referred to in paragraph 2 (f) under the heading "Report on other legal and regulatory requirements" of our report of even date

Report on Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls over financial reporting of Volkswagen Finance Private Limited (the "Company") as of March 31, 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone Ind AS financial statements.

**Meaning of Internal Financial Controls Over Financial Reporting with reference to these Standalone Ind AS financial statements**

A company's internal financial control over financial reporting with reference to these standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to these Standalone Ind AS financial statements**

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone Ind AS financial statements and such internal financial controls with reference to standalone Ind AS financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

# Volkswagen Finance Private Limited

## Notes to the Standalone Financial Statements for the year ended March 31, 2021 (Continued)

### 1.1. CORPORATE INFORMATION

Volkswagen Finance Private Limited (VWFPL) has been incorporated on January 16, 2009. The Company received NBFC license from the Reserve Bank of India (RBI) on March 17, 2011 and commenced NBFC business from March 24, 2011. VWFPL is providing retail car financing, dealer car financing, term loans, used cars financing, operating lease and insurance solutions to the customers for purchase of VW Group brand vehicles i.e. Volkswagen, Skoda, Audi, Porsche, Lamborghini, MAN and Scania.

### 1.2. BASIS OF PREPARATION

#### A. Statement of compliance

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016. The Company has adopted Ind AS from April 01, 2018 with effective transition date of April 01, 2017 and accordingly, these financial statements together with the comparative reporting period have been prepared in accordance with the recognition and measurement principles as laid down in Ind AS, prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with relevant rules issued there under and other relevant provision of the act.

The financial statements have been prepared on a historical cost basis except for:

- Certain financial assets and liabilities - measured at fair value
- Assets held for sale- Measured at fair value less cost to sell.
- Defined benefit plans (Employee benefit provisions) – measured at fair value.

B. The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to the financial years presented in the financial statements. These financial statements were authorized for issue by the Company's Board of Directors on June 28, 2021.

The preparation of financial statements in accordance with Ind AS requires use of estimates and assumptions for some items, which might have an effect on their recognition and measurement in the Balance sheet and Statement of Profit and Loss. The actual amounts realized may differ from these estimates. The estimates and the underlying assumptions are reviewed on an ongoing basis.

**Judgement, estimates and assumptions are required in particular for:**

#### I. Determination of estimated useful lives of property, plant, equipment

Useful lives of property, plant and equipment are based on the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

#### II. Recognition and Measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial valuation. Key actuarial assumptions which form the basis of above valuation includes discount rate, trends in salary escalation, demographics and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on

government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations. Further details are disclosed in note 27.

**III. Recognition of deferred tax assets**

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases, depreciation carry-forwards and tax credits. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, depreciation carry-forwards and unused tax credits could be utilized.

**IV. Recognition and measurement of provisions and contingencies**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the reporting date. The actual outflow of resources at a future date may therefore, vary from the amount included in other provisions.

**V. Discounting of long-term financial assets/liabilities**

All financial assets/liabilities are required to be measured at fair value on initial recognition. In case of financial assets/liabilities which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

**VI. Fair value of financial instruments**

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility. For further details about determination of fair value please see Note 29.

**VII. Business model assessment**

Classification and measurement of financial assets depends on the results of the solely payment of principal and interest (SPPI) and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held.

**VIII. Effective Interest Rate (EIR) method**

The Company's EIR methodology, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the contractual life of loans given/ taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle.

**IX. Impairment of financial assets**

The Company recognizes loss allowances for expected credit losses on its financial assets measured at amortized cost. At each reporting date, the Company assesses whether the above financial assets are credit- impaired. A financial asset is 'credit- impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. The Company's ECL calculations are outputs of statistical models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies such as macroeconomic scenarios and collateral values.

**C. Functional and presentation currency**

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest lakhs with two decimals, except when otherwise indicated.

**1.3. SIGNIFICANT ACCOUNTING POLICIES**

**A. REVENUE RECOGNITION**

- I. Interest income on financial assets is recognized on an accrual basis using effective interest method. EIR is calculated by considering all costs and incomes attributable to acquisition of a financial asset or assumption of a financial liability and it represents a rate that exactly discounts estimated future cash payments/receipts through the expected life of the financial asset/financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability.  
Interest revenue is continued to be recognized at the original effective interest rate applied on the gross carrying amount of assets falling under stages 1 and 2 as against on amortised cost net of impairment allowance for the assets falling under impairment stage 3.
- II. Fees and commission income and expense that are integral to the effective interest rate on a financial asset or financial liability are included in the effective interest rate. Fees and commission that are not integral to effective interest rate are recognised on accrual basis over the life of instrument except for penalty interest income and other service fee are recognized when there is reasonable certainty of receiving the same.
- III. All other fees, commissions and other income and expense are generally recognised on an accrual basis by reference to completion of the specific transaction assessed based on the actual service provided as a proportion of the total services to be provided.
- IV. The Company recognises revenue from contracts with customers based on a five step model as set out in Ind 115:

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Company satisfies a performance obligation.

The Company recognises revenue from contracts with customers based on a five step model as set out below.

## B. FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### Financial assets

#### Classification

The company classifies its financial assets in the following measurement categories;

- those to be subsequently measured at (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.

#### Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction fees or costs that are directly attributable and incremental to the origination/acquisition of the financial asset unless otherwise specifically mentioned in the accounting policies.

The Company recognises the financial assets at trade date on initial recognition.

**Business model assessment**

The Company makes an assessment of the objective of a business model in which an asset is held such that it best reflects the way the business is managed and is consistent with information provided to management. The information considered includes:

- the objectives for the portfolio, in particular, management's strategy of focusing on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Company's stated objective for managing the financial assets is achieved and how cash flows are realised.
- the risks that affect the performance of the business model, the financial assets held within that business model and how those risks are managed.

**Assessment whether contractual cash flows are solely payments of principal and interest**

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Company considers:

- reset terms
- contingent events that would change the amount and timing of cash flows;
- prepayment and extension terms; and
- features that modify consideration of the time value of money – e.g. periodical reset of interest rates.

**Financial assets at amortised cost**

A financial asset is measured at amortised cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest (EIR) method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR and reported as part of interest income in the Statement of Profit and Loss. The losses if any, arising from impairment are recognised in the Statement of Profit and Loss.

**Financial asset at fair value through Other Comprehensive Income (FVOCI)**

Financial asset with contractual cash flow characteristics that are solely payments of principal and interest and held in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets are classified to be measured at FVOCI. The impairment losses, if any, on such instrument is recognized through Statement of Profit and Loss.

**Financial asset at fair value through profit and loss (FVTPL)**

Any financial instrument, which does not meet the criteria for categorization as at amortized cost or as FVOCI, is classified to be measured at FVTPL.

Financial instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.

**Financial liabilities**

All financial liabilities are subsequently measured at amortised cost except when designated to be measured at FVTPL.

**C. IMPAIRMENT OF FINANCIAL ASSETS**

The provision for credit risks, which is recognized in accordance with the expected credit loss model specified by Ind AS 109 and in accordance with uniform standards applied, encompasses all financial assets measured at amortized cost. The calculation of the provision for credit risks generally takes into account the exposure at default, the probability of default and the loss given default.

Financial assets are subject to credit risks, which are taken into account by recognizing the amount of the expected loss; such allowances are recognized for both financial assets with objective evidence of impairment and non-impaired financial assets.

The general approach is used for financial assets measured at amortized cost on initial recognition. Financial assets are broken down into three stages in the general approach. Stage 1 consists of financial assets that are being recognized for the first time or that have not demonstrated any significant increase in probability of default since initial recognition. In this stage, the model requires the calculation of an expected credit loss for the next twelve months. Stage 2 consists of financial assets for which there is a significant increase in credit risk. Financial assets demonstrating objective indications of impairment are allocated to Stage 3. In Stages 2 and 3, an expected credit loss is calculated for the entire remaining maturity of the asset.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. For the wholesale portfolio, the credit risk is assumed to have been increased based on change in the risk class according to the master scale as of reporting date is compared with the risk class according to master scale as of initial recognition

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is 90 days or more past due
- For wholesale portfolio, it also depends on the risk class as per the master scale of the Company

In the case of financial assets already impaired on initial recognition and classified as purchase originated and impaired assets ("POCI") for the purposes of the disclosures, the provision for credit risks is recognized in subsequent measurement on the basis of the cumulative changes in the expected credit loss for the entire life of the asset concerned. Any financial instrument already classified as impaired on initial recognition remains in this stage until it is derecognized.

Both historical information, such as average historical default probabilities for each portfolio, and forward- looking information is used to determine the measurement parameters for calculating the provision for credit risks.

Impairment arises in a number of situations, such as delayed payment over a certain period, the initiation of enforcement measures, the threat of insolvency or over indebtedness, application for or the initiation of insolvency proceedings, or the failure of restructuring measures.

Reviews are regularly carried out to ensure that the allowances are appropriate. Uncollectible loans or receivables that are already subject to a workout process and for which all collateral has been recovered and all further options for recovering the loan or receivable have been exhausted are written off directly. Any valuation allowances previously recognized are utilized. Income subsequently collected in connection with loans or receivables already written off is recognized in profit or loss.

Loans and receivables are reported in the balance sheet at the net carrying amount. The provision for credit risks relating to off-balance sheet irrevocable credit commitments is recognized with- in other liabilities.

#### D. WRITE-OFFS

Financial assets are written off either partially or in their entirety when there is no realistic prospect of recovery. This is generally the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to impairment on financial instruments in Statement of Profit and Loss. However, financial assets that are written off may be subject to enforcement activities to comply with the Company's procedures for recovery of amounts due.

#### E. DERECOGNITION OF FINANCIAL ASSETS AND LIABILITIES

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in statement of profit or loss.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

#### F. MODIFICATION OF FINANCIAL ASSETS AND LIABILITIES

##### Financial assets

If the terms of a financial asset are modified, the Company evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Company recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in the Statement of Profit and Loss. Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortised over the remaining term of the modified financial asset. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses, in other cases, it is presented as interest income.

##### Financial liabilities

The Company derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in statement of profit or loss.

**G. MEASUREMENT OF FAIR VALUES**

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

**Level 1:** quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2:** inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3:** inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

**H. OFFSETTING OF FINANCIAL INSTRUMENTS**

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

**I. INVESTMENT IN SUBSIDIARY**

A subsidiary is an entity in which the Company has power to control the financial and operating policies so as to obtain benefits from its activities. Investment in subsidiary is carried at cost in separate financial statements.

**J. FOREIGN CURRENCY TRANSACTIONS**

Foreign currency transactions are recorded at the exchange rates prevailing on the date of such transactions. Foreign currency monetary assets and liabilities as at the balance sheet date are translated at the rates of exchange prevailing on the balance sheet date. Gains and losses arising on account of differences in foreign exchange rates on settlement/translation of foreign currency monetary assets and liabilities are recognized in the statement of profit and loss.

**K. TRADE RECEIVABLES**

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at the amount of

consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective to collect the contractual cash flows and therefore, measures them subsequently at amortised cost using the effective interest rate method, less allowance.

**L. TRADE AND OTHER PAYABLES**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

**M. PROPERTY, PLANT AND EQUIPMENT**

Property, plant and equipment are stated at acquisition cost less accumulated depreciation and impairment, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management. Gain or losses arising from the retirement or disposal of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of property, plant and equipment and recognized as income or expense in the Statement of Profit and Loss.

Depreciation is provided on a pro-rata basis on a Straight Line Method over the estimated useful life of property, plant and equipment at rates which are equal to or higher than the rates prescribed under Schedule II of the Companies Act, 2013 in order to reflect the actual usage of property, plant and equipment. The estimates of useful lives of property, plant and equipment, based on a technical evaluation, are reviewed periodically, including at each financial year end. Estimated useful lives over which assets are depreciated are as follows:

Asset Type	Useful life in years
Building	30
Leasehold Improvements	Over the lease period
Office Equipment	5
Computers - Servers and Networks	6
Computers - Laptops and Desktops	3
Furniture and Fixtures	10
Vehicles	8
Vehicles given on operating lease	Over the lease period

Used property, plant and equipment purchased are depreciated over the residual useful life from the date of original purchase. For property, plant and equipment purchased and sold during the year, depreciation is provided on pro rata basis by the Company.

Property, plant and equipment costing less than Rs.5,000 are fully depreciated in the year of purchase.

#### Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are reviewed at each reporting date and based on management's judgement, are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

#### R. EMPLOYEE BENEFITS

- I. Provident fund is a defined contribution scheme and the contributions as required by the statute to Government Provident Fund are charged to the Statement of Profit and Loss when due.
- II. Gratuity liability is a defined benefit obligation and is wholly unfunded. The Company accounts for liability for future gratuity benefits based on actuarial valuation. The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at the Balance Sheet date.
- III. Remeasurement of all defined benefit plans, which comprise actuarial gains and losses are recognised immediately in other comprehensive income in the year they are incurred. Remeasurements are not reclassified to profit or loss in subsequent period. Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in statement of profit or loss.

**N. INTANGIBLE ASSETS**

Intangible assets are stated at cost less accumulated amortization and impairment, if any. Intangible assets are amortized over their estimated useful lives on a straight line basis, from the date they are available for use. Estimated useful life over which intangible assets are amortised are as follows:

Asset Type	Useful life in years
Software	4

**O. INTANGIBLE ASSETS UNDER DEVELOPMENT**

Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use
- management intends to complete the software and use or sell it
- there is an ability to use or sell the software
- it can be demonstrated how the software will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the intangible assets under development include employee costs and an appropriate portion of relevant overheads. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

**P. BORROWING COST**

Borrowing costs other than those directly attributable to qualifying Property, Plant and Equipment are recognised as an expense in the period in which they are incurred.

**Q. INCOME TAX**

Income tax expense comprises current and deferred tax. It is recognised in statement of profit or loss except to the extent that it relates to items recognised directly in equity or in OCI.

**Current tax**

Current tax is measured at the amount expected to be paid in respect of taxable income for the year in accordance with the Income Tax Act, 1961. Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

- IV. The Company accrues the liability for compensated absences based on the actuarial valuation as at the balance sheet date conducted by an independent actuary which includes assumptions about demographics, early retirement, salary increases, interest rates and leave utilisation. The net present value of the Company's obligation is determined based on the projected unit credit method as at the Balance Sheet date.

**S. SEGMENTAL REPORTING**

The Company's operating segments are established on the basis of those components of the Company that are evaluated regularly by the Managing Director (the 'Chief Operating Decision Maker' as defined in Ind AS 108 - 'Operating Segments'), in deciding how to allocate resources and in assessing performance. These have been identified taking into account nature of products and services, the differing risks and returns and the internal business reporting systems.

Company has two principal operating and reporting segments viz

- Retail finance
- Dealer finance

Revenue and Expenses have been identified to a segment on the basis of relationship to operating activities of the segment. Revenue and Expenses which relate to the Company as a whole and are not allocable to a segment on reasonable basis have been disclosed as "Unallocable".

Segment Assets and Segment Liabilities represent Assets and Liabilities in respective segments. Investments, tax related assets and other assets and liabilities that cannot be allocated to a segment on reasonable basis have been disclosed as "Unallocable".

**T. EARNINGS PER SHARE**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. Partly paid equity shares are treated as a fraction of an equity share to the extent that they were entitled to participate in dividends relative to a fully paid equity share during the reporting period. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares).

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**U. PROVISIONS AND CONTINGENT LIABILITIES**

Provisions involving substantial degree of estimation in measurement are recognised when there is present obligation as a result of past events and it is probable that there will be an outflow of resources. Contingent liabilities are not recognised but disclosed in the notes. Contingent assets are neither recognised nor disclosed in financial statements.

## V. OPERATING LEASES

The company has applied IND AS 116 using the modified retrospective approach.

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets. The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less.

### i. Right to use of Asset

The Company recognises right-of-use assets at the commencement date (i.e., the date of adoption of Ind As 116). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

### ii. Lease Liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the Ind AS 116 adoption date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

## W. CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

**X. IMPAIRMENT OF NON-FINANCIAL ASSETS**

The carrying values of assets at each balance sheet date are reviewed for impairment if any indication of impairment exists. If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount.

The recoverable amount is the greater of the fair value less costs of disposal and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognised for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets, such reversal is not recognized.

**Y. CASH AND CASH EQUIVALENTS**

Cash and cash equivalents comprise of cash on hand and balances with banks. It also comprises of short-term deposits with an original maturity of three months or less that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

**Z. CONTRIBUTED EQUITY**

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**AA. NON-CURRENT ASSETS HELD FOR SALE**

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets that are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet

**AB. Transfer to special reserve**

As per section 45-IC of the Reserve Bank of India Act, 1934 (the RBI Act), the company is transferring an amount not less than 20 per cent of its net profit to a reserve fund before declaring any dividend. Appropriation from this reserve fund is permitted only for the purpose specified by RBI.

**AC. Goods and service tax**

Expenses and assets are recognised net of the goods and services tax paid, except:

- (i) when the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable;
- (ii) when receivables and payables are stated with the amount of tax included.

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Notes to the Financial Statements for the year ended March 31, 2021 (continued)

**Notes to the Financial Statements for the year ended March 31, 2021 (continued)****Nature and purpose of other equity**

(i) Special Reserve under section 45-IC(1) of the Reserve Bank of India Act, 1934

According to section 45-IC(1) of the Reserve Bank of India Act, 1934 every Non Banking Financial Company is to create a reserve fund and transfer a sum not less than 20% of the net profit every year before declaration of dividend. For preventing the defaults by the Non Banking Financial Companies, this is an added measure of protection created by the statute. It is created in order to give the entities and its creditors protection from the effect of losses.

(ii) Retained earnings

Retained earnings represents the surplus/accumulated earnings of the Company and are available for distribution to shareholders.

## Notes to the Financial Statements for the year ended March 31, 2021 (continued)

## 26) Earnings per share

Basic EPS amounts are calculated by dividing the profit / (loss) for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the profit / (loss) attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

Particulars	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
Net (loss) / profit from continued operation attributable to equity holders	2,228.92	(2,446.43)
Category 'A' shares	200.60	(220.18)
Category 'B' shares	2,028.31	(2,226.24)
Category 'A' shares		
Weighted average number of ordinary shares		
Opening equity share	105,192,207	105,192,207
Weighted average number of shares at year end	105,192,207	105,192,207
Weighted average number of shares at year end adjusted for the effect of dilution	105,192,207	105,192,207
Basic earnings / (loss) per share (INR) (Face value of Rs. 10 per share)	0.19	(0.21)
Diluted earnings / (loss) per share (INR) (Face value of Rs. 10 per share)	0.19	(0.21)
Category 'B' shares		
Weighted average number of ordinary shares		
Opening equity share	1,063,609,937	1,063,609,937
Weighted average number of shares at year end	1,063,609,937	1,063,609,937
Weighted average number of shares at year end adjusted for the effect of dilution	1,063,609,937	1,063,609,937
Basic earnings / (loss) per share (INR) (Face value of Rs. 10 per share)	0.19	(0.21)
Diluted earnings / (loss) per share (INR) (Face value of Rs. 10 per share)	0.19	(0.21)
Face value per share (INR)	10	10

For the purpose of calculating Earnings per share, dividend upto 6% of the total capital belongs to both Category 'A' Equity shares and Category 'B' Equity shares proportionate to their weighted average share holding and dividend over and above 6% belongs to Category 'A' Equity shares only (subject to approval from Board of

## 27) Employee benefit obligations

The Company has following post-employment defined benefit plans in India.

**A. Defined Contribution Plans:**

In accordance with Indian regulations, employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan, in which, both the employee and the Company contribute monthly at a determined rate. These contributions are made to a recognised provident fund. The employee contributes 12% of his or her basic salary and the Company contributes an equal amount. The Company recognized Rs. 112.61 Lakhs (Previous year. Rs. 133.21 Lakhs) for Provident Fund contribution in the Statement of Profit and Loss.

**B. Defined Benefit Plan:**

The Company offers the following employee benefit schemes to its employees:

In accordance with Payment of Gratuity Act, the Company provides for gratuity, a defined benefit retirement plan covering all employees. The plan provides a lump sum payment to vested employees at retirement or termination of employment based on the respective employee's salary and the years of employment with the Company subject to maximum of Rs. 20 lakhs. (Previous Year Rs. 20 lakhs).

The gratuity benefit is provided through unfunded plan and annual contributions are charged to the statement of profit and loss. Under the scheme, the settlement obligation remains with the Company. Company accounts for the liability for future gratuity benefits based on an actuarial valuation. The net present value of the Company's obligation towards the same is actuarially determined based on the projected unit credit method as at the Balance Sheet date.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

Particulars	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
<b>Non Current</b>		
Gratuity	145.44	167.77
<b>Total Non Current</b>	<b>145.44</b>	<b>167.77</b>
<b>Current</b>		
Gratuity	31.24	39.20
<b>Total Current</b>	<b>31.24</b>	<b>39.20</b>

**Movement in net defined benefit (asset) liability**

The following table shows a reconciliation from the opening balances to the closing balances for net defined benefit (asset) liability and its components:

Particulars	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
<b>Defined Benefit Obligation at the beginning of the year</b>	206.97	180.81
Current service cost	37.79	34.68
Past service cost	-	-
Interest expense/(income)	11.71	11.37
<b>Total amount recognised in profit and loss</b>	<b>49.51</b>	<b>46.05</b>
<i>Remeasurements</i>		
Return on plan assets, excluding amount included in interest expense/(income)	-	-
(Gain)/loss from change in demographic assumptions	-	0.00
(Gain)/loss from change in financial assumptions	5.40	5.70
Experience (gains)/losses	(6.43)	5.40
Actual Return on Plan assets	-	-
<b>Total amount recognised in other comprehensive income</b>	<b>(1.03)</b>	<b>11.10</b>
Employer contributions	-	-
Benefit payments	(78.77)	(30.99)
<b>Defined Benefit Obligations at the end of the year</b>	<b>176.68</b>	<b>206.97</b>

## Notes to the Standalone Financial Statements for the year ended March 31, 2021 (continued)

Particulars	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
Present value of funded obligations	-	-
Fair value of plan assets	-	-
Surplus of funded plan	-	-
Unfunded plan	176.68	206.97
Surplus of gratuity plan	176.68	206.97

## Expected Future Cashflows

	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
Year 1	31.24	39.20
Year 2	28.42	35.57
Year 3	27.68	31.84
Year 4	24.64	29.00
Year 5	21.24	24.75
Year 6-10	61.71	74.39

## Significant estimates: Actuarial assumptions and sensitivity

The significant actuarial assumptions were as follows:

Particulars	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
Discount rate	5.50%	6.25%
Salary escalation rate	8.00%	8.00%
Mortality Rate	IALM (2012-14) Ultimate	IALM (2012-14) Ultimate

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	Impact on defined benefit obligation			
	Increase in assumption (100 bps)		Decrease in assumption (100 bps)	
	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)	March 31, 2021 (Rs. in Lakhs)	March 31, 2020 (Rs. in Lakhs)
Discount rate	169.56	198.92	184.42	215.71
Salary escalation rate	184.17	215.48	169.66	198.98
Expected Return on plan assets	-	-	-	-

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

## C. Accumulated Compensated Absences

The Company provides for accumulated compensated absences as at the balance sheet date on the basis of an actuarial valuation. The Company recognized Rs. 31.54 Lakhs (Previous year. Rs.73.90 Lakhs) for Compensated Absences in the Statement of Profit and Loss.

**28) Financial risk management**

The Company has exposure to the following risks arising from financial instruments:

- (i) Market risk
- (ii) Credit risk
- (iii) Liquidity risk

**Risk management framework**

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

**(i) Market risk**

Market risk is the risk that changes in market prices and is exposed to risks such as

- a) Interest rate risk
- b) Currency risk
- c) Prepayment risk

which will affect the Company's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

**a) Interest rate risk**

Interest rate risk arises from the possibility that changes in interest rates will affect the fair value or cash flows of the financial assets and financial liabilities. Normally, the Company's business is exposed to interest rate risk as a result of mismatches or gaps in the amounts of assets and liabilities and off-balance-sheet instruments that mature or reprice in a given period. The Company manages this risk by matching the assets and liabilities through risk management strategies.

The table below details the exposure of the Company to interest rate risk

Particulars	(Rs. in Lakhs)	
	March 31, 2021	March 31, 2020
<b>Fixed rate</b>		
Financial assets	244,732.53	169,502.28
Financial liabilities	120,532.33	222,718.94
<b>Floating rate instruments</b>		
Financial assets	42,715.58	210,582.54
Financial liabilities	17,450.00	-

The interest rate sensitivity of the income statement measures the effect of assumed changes in interest rates on the net interest income for one year, based on the interest bearing financial assets and liabilities held at year end. The interest rate sensitivity in the income statement is the impact of changes in interest rates on the fair value of floating rate loans (working capital demand loan and bank overdraft) and floating rate loans given (dealer funding) as at the year end. The following table reflects the effects of 50 bps to 100 bps basis points change in interest rate curve on the income statement with all other variables held constant:

Particulars	(Rs. in Lakhs)	
	March 31, 2021	March 31, 2020
Decrease by 50bps to 100 bps:		
- Impact on income statement	(253.74)	(59.08)
- Other Comprehensive Income		

## b) Currency risk

Currency risk is the risk that the fair value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is exposed to foreign exchange rates on account of payables outstanding in the financial statements. Outstanding positions are monitored on a periodical basis to ensure that the positions are within established limits.

The company's exposure to foreign currency risk at the end of reporting period expressed are as follows:

Particulars	(Rs. in Lakhs)	
	March 31, 2021	March 31, 2020
<b>Financial Liabilities</b>		
<i>Payable to Related Parties</i>		
EURO (net of receivables)	751.36	691.74
SEK	8.88	-
<i>Other Payables</i>		
GBP	-	3.49

The Sensitivity of Profit and Loss and OCI to changes in the exchange rates are as follows:

The Company has considered the maximum price movement in the respective currency during the year as sensitivity benchmark for the purpose of Foreign Currency Sensitivity Analysis

Particulars	(Rs. in Lakhs)	
	March 31, 2021	March 31, 2020
Adverse change in foreign exchange rate based on previous 12 months movement in exchange rate		
- Impact on income statement		
EURO	(28.78)	(30.16)
SEK	(0.60)	
GBP		(0.15)
- Other Comprehensive Income		

## c) Prepayment risk

Prepayment risk is the risk that the Company will incur a financial loss because its customers and counterparties repay or request repayment earlier than expected particularly in case of fixed rate loans when interest rates fall.

Most of the Company's interest-bearing financial assets are at fixed rates loans. In addition, majority of the interest-bearing financial liabilities have a maturity of less than one year and the Company also has a repayment option to prepay the liabilities. Accordingly, the Company is not exposed to significant prepayment risk since the financial liabilities can be paid in case of prepayments of financial assets.

## ii) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances. Credit risk encompasses both, direct risk of default and the risk of deterioration of creditworthiness as well as concentration of risks.

## (a) Expected Credit Loss measurement

Ind AS 109 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition wherein if a financial instrument that is not credit-impaired on initial recognition is classified in Stage 1. If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to Stage 2 but is not yet deemed to be credit-impaired and if the financial instrument is credit-impaired, the financial instrument is then moved to Stage 3. Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition and are taken to Stage 3.

The general approach is used for financial assets measured at amortized cost, financial assets (debt instruments) whose changes in fair value are recognized in other comprehensive income and for irrevocable credit commitments unless there is already objective evidence of impairment on initial recognition. Financial assets are broken down into three stages in the general approach. Stage 1 consists of financial assets that are being recognized for the first time or that have not demonstrated any significant increase in probability of default since initial recognition. In this stage, the model requires the calculation of an expected credit loss for the next twelve months. Stage 2 consists of financial assets for which there is an significant increase in credit risk. Financial assets demonstrating objective indications of impairment are allocated to Stage 3. In Stages 2 and 3, an expected credit loss is calculated for the entire remaining maturity of the asset.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due. For the wholesale portfolio, the credit risk is assumed to have been increased based on change in the risk class according to the master scale as of reporting date is compared with the risk class according to master scale as of initial recognition

Notes to the Standalone Financial Statements for the year ended March 31, 2021 (continued)

---

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held);
- or
- the financial assets is 91 days or more past due

In the case of financial assets already impaired on initial recognition and classified as purchase originated and impaired assets ("POCI") for the purposes of the disclosures, the provision for credit risks is recognized in subsequent measurement on the basis of the cumulative changes in the expected credit loss for the entire life of the asset concerned. Any financial instrument already classified as impaired on initial recognition remains in this stage until it is derecognized.

Both historical information, such as average historical default probabilities for each portfolio, and forward-looking information is used to determine the measurement parameters for calculating the provision for credit risks.

Reviews are regularly carried out to ensure that the credit risk provisions are appropriate. Uncollectible loans or receivables that are already subject to a workout process and for which all collateral has been recovered and all further options for recovering the loan or receivable have been exhausted are written off based on the management's decisions. Any provision allowances previously recognized are utilized. Income subsequently collected in connection with loans or receivables already written off is recognized in profit or loss.

Loans are reported in the balance sheet at the net carrying amount. The provision for credit risks relating to off-balance sheet revocable credit commitments is not recognized since the same are unconditionally cancellable commitments.

The Company does not recognize provision for credit risks for receivables and cash & cash equivalents since they carry low credit risk.

**b) Collateral and other credit enhancements**

The Company employs a range of tools to reduce credit risk. The Company seeks collateral coverage, assignment of contract proceeds and other forms of protection to secure lending and minimize credit risks wherever possible. The Company's borrowing agreements also include legally enforceable netting arrangements for loans and deposits enabling the Company to consolidate the customer's various accounts with the Company and either transfer credit balances to cover any outstanding borrowings or freeze the credit balances until the customer settles their outstanding obligations to the Company.

Collateral held varies, but may include:

- Underlying vehicles in case of retail portfolio
- Residential and commercial real estate property
- Land
- Bank guarantee

The Company's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collateral held by the Company since the prior period.

## Notes to the Standalone Financial Statements for the year ended March 31, 2021 (continued)

Notes to the Standalone Financial Statements for the year ended March 31, 2021 (continued)**(iii) Liquidity risk**

Liquidity Risk is the risk arising from the inability of the Company to meet its financial obligations on time without incurring significant costs. Liquidity risk is a sequential risk that may be caused by market disruptions or credit downgrades which may cause certain sources of funding to dry up immediately. To guard against the risk, management has diversified funding sources & assets are managed with liquidity in mind, maintaining sufficient un-utilised bank limits. Liquidity risk arises in the general funding of the company activities. Under the guidance of the Asset Liability Committee (ALCO), the Treasury manages the liquidity and funding of the Company to ensure that sufficient funds are available to meet the Company's known cash funding requirements and unanticipated needs that may arise. At all times, the Company holds what it considers to be adequate levels of liquidity to repay borrowings and fund new loans, even under stressed conditions.

The Operational Liquidity Committee (OLC) holds meeting once in a fortnight wherein it closely assesses the current liquidity conditions and the liquidity requirements to support repayment & business growth.

At glance FY 2021,

VWFPL liquidity has been well managed. As of March 31, 2021, VWFPL has funding lines INR 3,489 Crores, Commercial Papers limits of INR 3,000 Crores and ability to further issue bonds of INR 200 Crores based on the ratings for the issue available at hand. NCD further issuance can be done, if required. It is the endeavor of VWFPL to ensure sufficient free/vacant lines to be able to manage debt capital market obligations and smooth payout of bank loans. BNP Paribas has enhanced the credit facility from INR 169 Crores to INR 550 Crores, which is not considered in the available funding lines as on 31st March 2021. The bank agreement has been executed before 31st March 2021 but corporate guarantee issued in the month of May 2021. As on 31st May 2021, the funding lines are Rs. 3,825 Crores.

VWFPL enjoys top credit rating for its CP and NCD instruments. Even during the ongoing pandemic of COVID'19, VWFPL has managed its liquidity smoothly. Reasonably high concentration in long term instruments such as NCD and long term bank term loans ensured less stress. Further, to safeguard the position on liquidity risk, VWFPL created liquidity buffer of INR 15 Crores in terms of fixed deposits with Banks.

VWFPL has support from its parent. The bank borrowings are guaranteed by the parent Company

The table below summarizes the maturity profile of the assets & liabilities at the year and based on residual contractual repayment arrangements (assets & liabilities without a contractual maturity are based on management expectations).

## 29) Financial instruments - Fair value measurement

The fair value is the amount at which financial instruments could be sold on fair terms as of the reporting date. Where market prices (e.g. for marketable securities) were available, we have used these prices without modification for measuring fair value. If no market prices were available, the fair values for loans/receivables and liabilities were calculated by discounting using a maturity-matched discount rate appropriate to the risk.

29.1) Carrying amounts of the financial assets and financial liabilities, including their levels in the fair value hierarchy, are presented below:

(Rs. in Lakhs)

**Valuation techniques used to determine fair value:**

The Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. This includes a risk team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer

The Company uses the following hierarchy for determining and disclosing the fair value of financial assets by valuation technique:

The fair value of financial instruments are classified into three categories i.e. Level 1, 2 or 3 depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active market for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements).

The hierarchies used are as follows:

Level 1: Financial instruments measured using quoted prices and that are traded in active market are categorized under level 1. The company has no financial instruments which are categorized as level 1.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using observable market data and not the entity specific estimates. The Non Convertible debentures which are classified as debt securities have been categorized as level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The instruments are valued based on quoted prices for the similar instruments but for which significant observables adjustments are required to reflect the difference between the instruments. Loans have been included in level 3 category.

**Loans**

The fair values of loans that do not reprice or mature frequently are estimated using discounted cash flow models. The discount rates are based on internal estimation and consequently for the purposes of level disclosures categorized under Level 3. The discount factor used for fair valuation is derived using a combination of interpolated risk-free interest rates, risk premium, service fee and interpolated funding spreads as on valuation date. Input data used to carry out the fair valuation covers portfolio data, expected future cashflows, provision data and live LAN level data for each product in the portfolio.

**Debt securities**

The fair values of the Company's non convertible debentures are calculated based on a discounted cash flow model. The discount factor used for fair valuation is derived using a combination of interpolated risk-free interest rates and credit-spreads of the Company as on valuation date. Input data used to carry out the fair valuation covers portfolio data and expected future cashflows for each product in the portfolio.

**Transfers between Levels**

There are no transfers between Level 1, 2 and 3 since there are no financial instruments at fair value under the category

**30) Capital****Capital management**

The primary objectives of the capital management policy is to ensure that the Company continuously complies with capital requirements required by regulator, maintains strong credit ratings and healthy debt to equity ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to fund growth or comply with regulatory capital requirement, Company depends on internal accrual or may raise additional capital. Company may adjust the amount of dividend payment to shareholders, return capital to shareholders.

The company uses the capital adequacy requirement as prescribed by the regulator as benchmark to monitor its capital requirements. The status of capital adequacy requirements are mentioned below:

**Regulatory capital**

Particulars	(Rs. in Lakhs)	
	As on March 31, 2021	As on March 31, 2020

# As part of wholesale funding arrangement with dealer, the company makes payment to related parties on behalf of dealers. Accordingly, the amount of these transaction during the year has not been shown under the category of 'Transaction during the year'.

@ Includes Parent Company of Holding Company

During the year the Company received INR 4,579.23 lakh (Previous year: 356.64) from Scania Commercial Vehicles India Private Limited towards the guaranty on the borrowers.

## 34) Segment Reporting

For management purposes, the Company is organised into business units based on its type of products and has two reportable segments, as follows:

- Retail Finance
- Dealer Finance

The Chief Operating Decision Maker ("CODM"), is the managing director of the Company who evaluates the performance and allocates resources based on an analysis of various performance indicators by operating segments. Operating profit or loss is reported as the primary key performance indicator to the chief operating decision-makers. The information made available to management for management purposes is based on the same accounting policies as those used for external financial reporting.

**Retail Finance:** Providing loans to customers for purchase of VW Group brand vehicles i.e. Volkswagen, Skoda, Audi, Porsche, Lamborghini MAN and Scania.

**Dealer Finance:** providing New Car Unit Funding, Term Loans and Used Cars funding to the dealers of VW Group brand i.e. Volkswagen, Skoda, Audi, Porsche, Lamborghini and MAN.

Notes to the Standalone Financial Statements for the year ended March 31, 2021 (continued)

- 36) The Company has certain dues to suppliers registered under Micro, Small and Medium Enterprises Development Act, 2006 ('MSMED Act'). The disclosures pursuant to the said MSMED Act are as follows:

Particulars	(Rs. in Lakhs)	
	March 31, 2021	March 31, 2020
Principal amount due to suppliers registered under the MSMED Act and remaining unpaid as at year end	23.40	25.72
Interest due to suppliers registered under the MSMED Act and remaining unpaid as at year end	-	-
Principal amounts paid to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
Interest paid, other than under Section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
Interest paid, under Section 16 of MSMED Act, to suppliers registered under the MSMED Act, beyond the appointed day during the year	-	-
Interest due and payable towards suppliers registered under MSMED Act, for payments already made	-	-
Further interest remaining due and payable for earlier years	-	-

The above information regarding small scale industrial undertakings and micro, small and medium enterprises have been determined to the extent such parties have been identified on the basis of information available with the company.

- 37) **Contingent Liabilities and other Capital Commitments**

a. **Contingent liabilities not provided for in respect of**

Particulars	(Rs. in Lakhs)	
	March 31, 2021	March 31, 2020
Disputed claims not acknowledged as debt	196.56	156.72
Service tax matters under appeal	5,071.85	5,071.85
Income tax matters under appeal	673.55	89.20

- i. The Company is of the opinion that the above demands are not tenable and expects to succeed in its appeals / defense

ii. **Service Tax Matter**

Company received show cause notice from Office of the Assistant Commissioner of Service Tax demanding service tax of Rs. 2,537.76, Lakhs on certain transactions. The Company has disputed the said show cause notice and started paying the service tax on those transactions under protest. The Commissioner of Service Tax had passed order dated February 20, 2017 confirming the stand taken by the department to pay service tax along with interest and penalty. The Company has disputed the order passed by the Commissioner of Service Tax and has filed appeal before The Customs, Excise and Service Tax Appellate Tribunal (CESTAT) in the financial year 2017-18.

Accordingly, service tax matter in respect of which assessment pending is Rs. 5,071.85 Lakhs (March 31, 2020 Rs. 5,071.85 Lakhs) and the amount paid under protest Rs. 2,534.08 Lakhs (March 31, 2020 Rs. 2,534.08 Lakhs). This is being disputed by the Company and not provided for.

iii. **Income Tax Matter**

In respect of Income Tax matter, in FY 2015-16 the Company had received show cause notice for non deduction of withholding tax on payment to non-residents. The company has disputed the said show cause notice and paid the disputed liability under protest. The Income Tax Appellate Tribunal (ITAT) has passed order confirming the stand taken by the department to pay withholding tax along with interest and penalty. The Company is disputing the said order and has filed an appeal with the High Court. The Company has also received penalty order under section 271C of The Income Tax Act, 1961 which has been disputed by the Company and the appeal against the same has been filed with Commissioner of Income Tax (Appeal).

For FY 2015-16 and FY 2016-17, Transfer Pricing Officer / Assessing Officer had made an adjustment for Information Technology Support Services (ITSS) availed from its Associated Enterprise (AE). The assessment orders were passed for both years treating the arm's length price of ITSS transaction as Nil. The TPO / AO replying on OECD guidelines on Intra Group Services stated in the order that assessee did not satisfy the Need-Evidence-Benefit test and the arm's length price (ALP) was determined to be Nil. The Company is disputing the said order and has filed an appeal with the Commission of Income Tax (Appeals).

For FY 2015-16 and FY 2016-17, the Company has paid 20% of the total demand tax raised for each of the years. The tax on IT Support Services adjustment of Rs. 266.21 Lakhs (March 31, 2020 Rs. Nil) and Rs. 318.14 Lakhs (March 31, 2020 Rs. Nil) for FY 2015-16 and FY 2016-17 respectively are disputed by Company and hence not provided for.

Accordingly, Income tax matter in respect of which appeals have been filed is Rs. 673.55 Lakhs (March 31, 2020 Rs. 89.20 Lakhs) and Rs. 44.60 Lakhs (March 31, 2020 Rs. 44.60 Lakhs) had been paid under protest. This is being disputed by the Company and hence not provided for.

b. **Capital Commitments :**

Estimated value of contracts in capital account remaining to be executed is INR 40.38 lakhs (March 31, 2020: NIL)

Amounts sanctioned but not disbursed: Nil ( March 31, 2020: Rs. 1,997.78 Lakhs)

38) **Corporate social responsibility expenses**

(i) Gross amount required to be spent by the Company during the year: ( Rs. in Lakhs) 72.13

(ii) Amount spent during the year on: (Rs. In Lakhs)

Particulars	Paid	Yet to be paid	Total
Construction, acquisition of any asset	Nil	Nil	Nil
On purposes other than the above*	75.00	-	75.00

\* Excludes Rs. 23.42 lacs was spent during the year pertaining to CSR budget for the year ended 31 March 2020.

Eligible excess spend on CSR of INR 1.74 lakhs during the year 2020 -21 to be carried forward to Year 2021-22

<b>Total income tax expenses</b>	<b>926.75</b>	<b>523.36</b>
<b>Effective tax rate</b>	<b>29.37%</b>	<b>29.51%</b>

The company offsets tax assets and liabilities if and only if it has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority.

Significant management judgment is required in determining provision for income tax, deferred income tax assets and liabilities and recoverability of deferred income tax assets. The recoverability of deferred income tax assets is based on estimates of taxable income in which the relevant entity operates and the period over which deferred income tax assets will be recovered.

(v) Tax Balances

## (d) Disclosure under Regulation 54(2) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

## Asset cover

The Debentures are secured by way of a first and pari passu mortgage in favour of the Security Trustee on the Company's immovable property of Rs. 20.91 lakhs and further secured by way of hypothecation/mortgage of charged assets such as receivables arising out of auto loan.

The COVID-19 pandemic has affected several countries across the world including India. The pandemic and consequent lockdown imposed by the Government considerably impacted the Company's business operations during the year ended 31 March 2021. Apart from other adverse effects the pandemic resulted in a significant cover business acquired and completed recovery of overdrafts from customers for the large part of the year.

In accordance with the Reserve Bank of India ("RBI") guidelines relating to COVID-19 Regulatory Package dated 27 March 2020 and subsequent guidelines on EMI moratorium dated 17 April 2020 and 24 May 2020, the Company had offered moratorium to its customers based on requests as well as on sub-section 2(b) of the Insolvency and Bankruptcy Code, 2016. Further, the Company offered resolut on plan to its customers pursuant to the RBI's guideline Resolution framework for COVID-19 related stress dated 6 August 2020.

The Company holds a management overlay of Rs. 2300 crores as at 31 March 2021. In management's view and considering the guidance provided by the Institute of Chartered Accountants of India regarding moratorium to borrowers at a large scale based on RBI directives, the Company's not considered to result in a significant increase in their risk profile for such borrowers. The Company has carried out stress tests for all other major management overlay allowance an increased risk of deterioration in macro economic factors caused by COVID-19 pandemic. The Company believes that the factors considered are reasonable under the current circumstances. The Company has used indicators of moratorium decreased payment delays along with an estimation of potential stress on probability of default and exposure at default due to COVID-19 situation in developing the estimate and assumptions to assess the impairment loss allowance on loans. Given the unique nature and scope of the economic impact of this pandemic, these estimates are subject to uncertainty and may be affected by the severity and duration of pandemic.

Note: In the balance sheet statements referred to herein above, certain figures pertain to the financial statements.
